## Experience Empowerment

**ANDERSEN Line Tenders®** have been developed for easy and simple spinnaker up/downhaul, Genoa-car and furling-jib systems. By operating a spring-loaded pin, you can select left or right ratcheting. Removing the drum and rotating the pawl housing 90 degrees changes the locked position to a free wheel function. The ANDERSEN Line Tender© is available for fixed or track mounting.

### Line Tenders

	Lenght mm	Width mm	Height mm	Line Size mm	Mounting	Gear Ratio	Power Ratio	Art. No.
Fixed	140	112	55	12	4 x M6 mm	1.0:1	6.5:1	491401
Track	122	112	65	12	T-track 32 x 5 mm	1.0:1	6.5:1	491401

**New ANDERSEN Racing Winch Handle®** Ergonomically designed for perfect power transfer. Featuring automatically lock-in and easy push button controlled release. Highly polished stainless steel combined with composite makes the handle design strong light and impressive.
