WHAT'S NEW BY PROFURL?

SPECIAL FOR THE 2010 ROUTE DU RHUM:

The trimarans IDEC (80') and Groupama 3 (100') will be fully equipped with Profurl furling systems.

IDEC - Francis Joyon

Francis Joyon and Profurl have been collaborating for many years. Once again, Francis has chosen to equip his boat with Profurl for the 2010 Route du Rhum.

Profurl furling systems on board:

- 16T stayfurler for staysail
- 30T stayfurler for solent jib

Multihull Groupama 3

After winning the Jules Verne Trophy at the beginning of this year, this giant 100' trimaran has since been modified in preparation for the 2010 Route du Rhum.

Profurl has been selected to provide an innovative range of furling systems (using ceramic bearings)

Profurl furling systems on board:

- NEX HYBRID 20T flying sail furler for gennaker
- NEX HYBRID 25T flying sail furler for solent jib
- 40T stayfurler for staysail

New

NEX STRUCTURAL

Profurl introduces its new range of stayfurlers called NEX Structural. With 3 models as standard (STR 5.0 STR 8.0 and STR 10.0), this range has been designed specifically for different sailing activities, namely: racing-cruising, regatta or off-shore racing. See page 29

Video

NEX

The NEX video is now available from the Profurl website at www.profurl.com. Find out about the NEX innovations that really make a difference: Performance, Safety and Ease of use.
